

## Delete Devices and Room User Guide

# Delete Devices and Rooms

---

## **NOTE:**

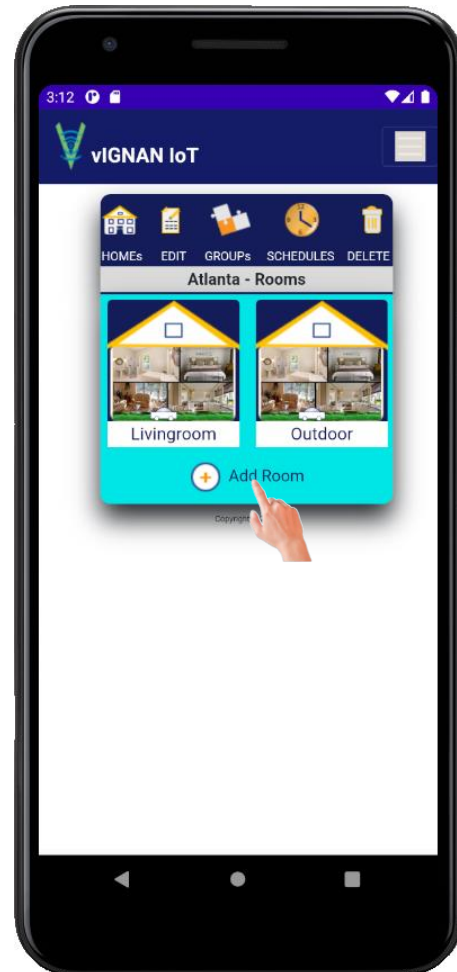

- *Deleting a “vIoT smart device” is a 3 step process*
  - *Step-1: Create a new room*
  - *Step-2: Move the device you want to delete in to this new room*
  - *Step-3: Delete this new room which will delete all the devices in this room*
- *No simple click and delete option for “vIoT Smart Device/s”*
  - *To prevent accidental delete of a smart device configuration, and setup including groups and schedules*

# Delete Devices and Rooms

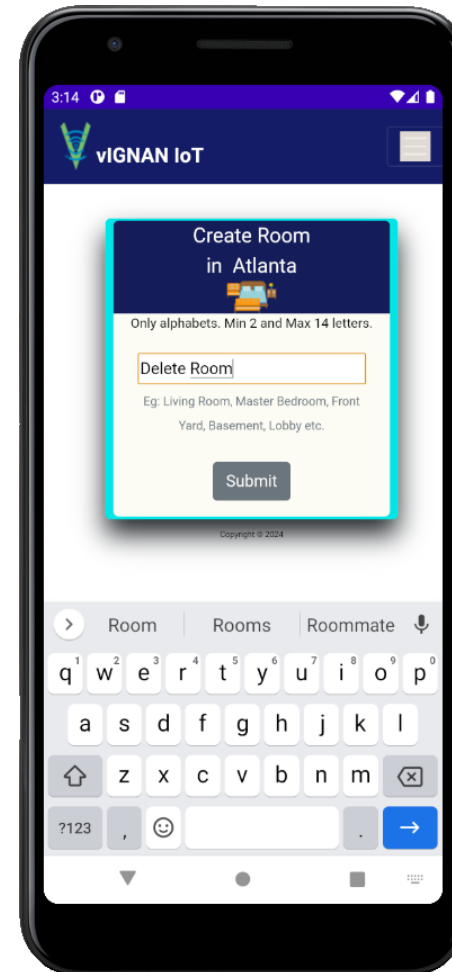

## Step-1: Create a new room

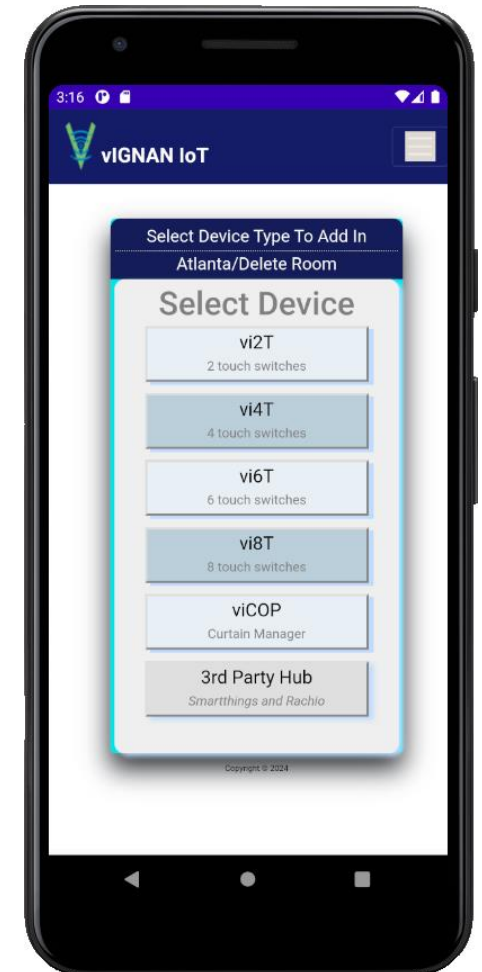

Click on "Atlanta" home

Click on "Add Room"

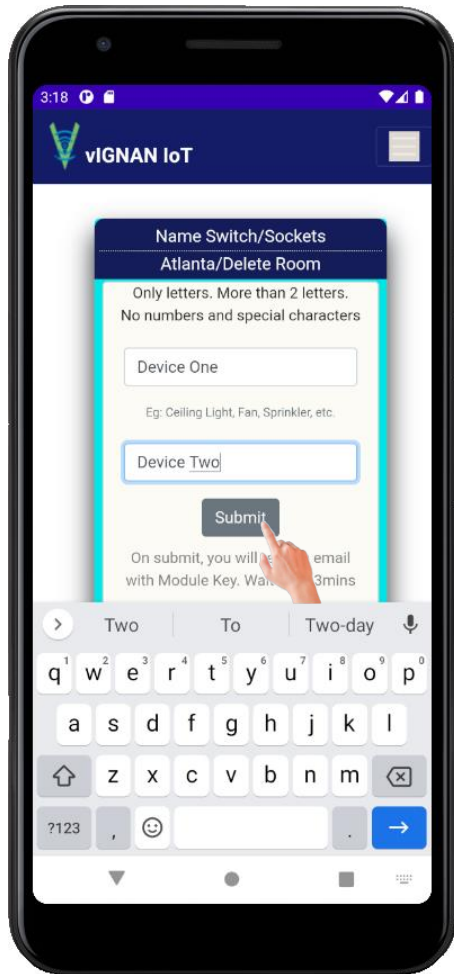

Type room name (Example: Delete Device)  
and click on Submit button

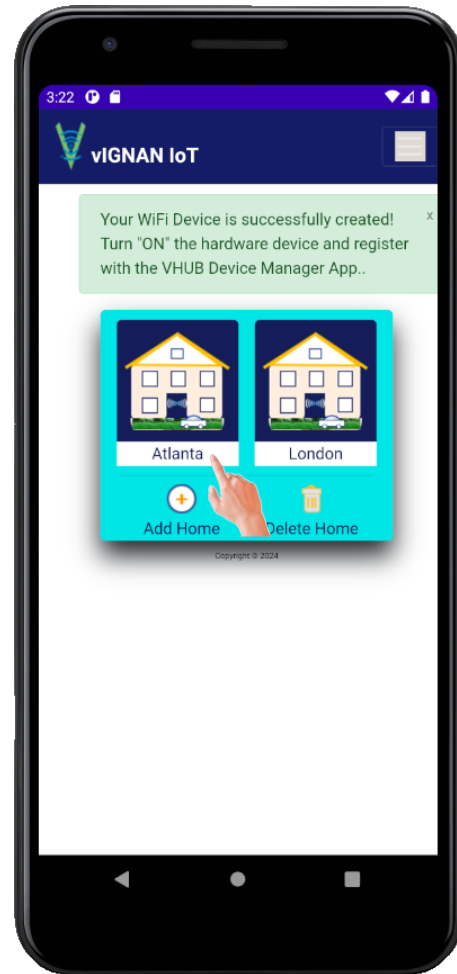

Select Device Type  
Example: vi2T (2 Touch Switches Smart Device)
